# END USER LICENCE AGREEMENT

1. For the purposes of this agreement, the Author is defined as Novawing24, aka Novawing24 Productions, and the User (also referred to as "you") is defined as the individual who downloaded this livery for personal / recreational use.
2. No harm is intended or expected by this package. The use of this package is entirely at the risk of the user, persons in charge, or those using this product. Any risks of any form are entirely the responsibility and liability of the user, users or persons who use or download this package.
3. The Author accepts no liability or responsibility for any damage or harm to persons or material goods as a result of this package. Any costs relating to any damage or claimed damage is the sole responsibility of the user.
4. This release is for use solely for personal / recreational purposes and is not to be used for commercial purposes. If you wish to use this content for commercial purposes, please contact the Author at [novawing24@outlook.com](mailto:novawing24@outlook.com).
5. This release is released as Freeware / Donationware. If you have accessed this work from any means other than <http://www.novawing24.com>, Gumroad Store, [flightsim.to](http://flightsim.to) or supplied directly by the Author, please advise the Author by email to [novawing24@outlook.com](mailto:novawing24@outlook.com).
6. You may NOT modify, edit, or in any way alter this work nor use it as a base for your own work without express written authority from the Author.
7. You agree not to, nor will you permit others to licence, sell, rent, lease, assign, distribute, host, outsource, disclose, or otherwise commercially exploit this content nor make it available to any third party.
8. Ignorance of this document or of its interpretation is not sufficient grounds for exception to it and its legality.
9. The Author reserves the right, at their sole discretion, to modify or replace this Agreement at any time. If a revision is material, we will provide at least 14 days' notice prior to any new terms taking effect. What constitutes a material change will be determined at our sole discretion.

# ABOUT

The Royal Flying Doctor Service of Australia is a non-profit Aeromedical Service that provides Primary Healthcare as well as Emergency Care and Evacuation services to regional and remote parts of Australia.

Known colloquially as The Flying Doctor, the service provides critical care services, and acts as the local healthcare provider for thousands of Australians away from major towns and cities. They rely heavily on community participation and fundraising to continue their critical role.

This texture set applies the new RFDS colour scheme to two of the generic AI traffic models in Microsoft Flight Simulator.

# PILOTS NOTES

This was a small side project developed alongside my charity work to support the Royal Flying Doctor Service with the release of several liveries for the King Air 350i and the Caravan.

I wanted to add some more life to the living world of MSFS, and this felt like a great mini-project to do that with.

Thank you for supporting my work and keep an eye out on my website and my Facebook page for any updates to this product and the future releases.

I hope you enjoy this aircraft and would love to see it in action! Join fellow aviators in our community [Discord](#) and share your thoughts and experiences there!

# ABOUT THE ARTIST

I have been around aviation for longer than I care to remember. Whilst my own professional piloting dreams were crushed through medical restrictions, instead I have found ways to become active in the aviation world, both real and virtual. I currently work in the training space, providing training solutions and content to the Aviation and Defence sectors while simultaneously working with a range of high-quality developers across the home user market.

I first started experimenting with creating textures for HAWX following many years building plastic scale models. From very humble and basic beginnings, I have slowly grown my skills and content. I have created texture sets for all the major flight simulation platforms, as well as arcade style titles and professional training software for over a decade. My content can be found in virtual hangars all around the world as well as supplying content to professional training organizations and add-on developers.

As well as uploading freeware content, I have a range of content available for sale and I am available for commission work. My Commission status and rates are generally available in my Community [Discord](#). Head over to my [website](#), [GumRoad](#) store to check out my other work; or reach out and get in touch if you have a specific project in mind.
