10. The Author reserves the right, at their sole discretion, to modify or replace this Agreement at any time. If a revision is material, we will provide at least 14 days' notice prior to any new terms taking effect. What constitutes a material change will be determined at our sole discretion.

ABOUT

The Citation Longitude is one of several types used by the Erusean Royal Family for efficient transport across the nation and around the world. This aircraft is attached to the Erusean Air Force 2nd Royal Squadron, known as the Iron Knights, and operates primarily out of the Capital Farbanti. During normal operations the aircraft uses the call sign “Knight”, however during VIP taskings this changes to “Carriage”.

The Statesman variant of the aircraft differs from the standard variant through the addition of ECM equipment, concealed Chaff and Flare dispensers and strengthened airframe. When serving in the VIP role, there will normally be no more than two members of the Royal Household aboard with its capacity for 6 in total. The aircraft has often been seen accompanied by F-15C's of the 3rd Royal Guards Regiment throughout Erusea and beyond.

PILOTS NOTES

I am a latecomer to the Strangereal Universe and the world of Ace Combat. I have found it to be over the top, and yet some of the most engrossing and engaging stories and worlds I have ever come across.

This was a fun little project, a bit of a diversion to pay homage to a beautifully crafted world, I just hope I do it justice.

Thank you for supporting my work and keep an eye out on my website and my Facebook page for any updates to this product and the future releases.

I hope you enjoy this aircraft and would love to see it in action! Join fellow aviators in our community [Discord](#) and share your thoughts and experiences there!

ABOUT THE ARTIST

I have been around aviation for longer than I care to remember. Whilst my own professional piloting dreams were crushed through medical restrictions, instead I have found ways to become active in the aviation world, both real and virtual. I currently work in the training space, providing training solutions and content to the Aviation and Defence sectors while simultaneously working with a range of high-quality developers across the home user market.

I first started experimenting with creating textures for HAWX following many years building plastic scale models. From very humble and basic beginnings, I have slowly grown my skills and content. I have created texture sets for all the major flight simulation platforms, as well as arcade style titles and professional training software for over a decade. My content can be found in virtual hangars all around the world as well as supplying content to professional training organizations and add-on developers.

As well as uploading freeware content, I have a range of content available for sale and I am available for commission work. My Commission status and rates are generally available in my Community [Discord](#). Head over to my [website](#), [GumRoad](#) store to check out my other work; or reach out and get in touch if you have a specific project in mind.

NOVEMBER 24

It is not the critic who counts; not the man who points out how the strong man stumbles, or where the doer of deeds could have done them better. The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood; who strives valiantly; who errs, who comes short again and again, because there is no effort without error and shortcoming; but who does actually strive to do the deeds; who knows great enthusiasms, the great devotions; who spends himself in a worthy cause; who at the best knows in the end the triumph of high achievement, and who at the worst, if he fails, at least fails while daring greatly, so that his place shall never be with those cold and timid souls who neither know victory nor defeat.

~ Theodore Roosevelt
