8. Ignorance of this document or of its interpretation is not sufficient grounds for exception to it and its legality.
9. Any breach of the outlined terms of this agreement will result in revocation of your authority to use the package and its contents. It will also make you liable for compensation to be paid to the author for the breach(s).
10. The Author reserves the right, at their sole discretion, to modify or replace this Agreement at any time. If a revision is material, we will provide at least 14 days' notice prior to any new terms taking effect. What constitutes a material change will be determined at our sole discretion.

ABOUT

Norwegian pilots flew Spitfires throughout WW2 and well into the Cold War. During the war, Norwegian pilots flew as part of the Royal Air Force, and served with distinction throughout the European theatre of operations

In 1946, the UK Government agreed to supply the resurrected Royal Norwegian Air Force with enough Spitfires to equip three day fighter squadrons and three photo reconnaissance aircraft.

The three examples included in this package depict these three Spitfire PR Mk IX's in post war service towards the ends of their careers in the 1950's.

PILOTS NOTES

I have always loved the Spitfire, and vividly remember the sounds of 20 of them flying together at an air show at Duxford. One of the things that always fascinates me about the Spitfire, is that while we all know its importance in the Battle of Britain and the RAF, it was operated in every corner of the world by many nations, right into the 1950s!

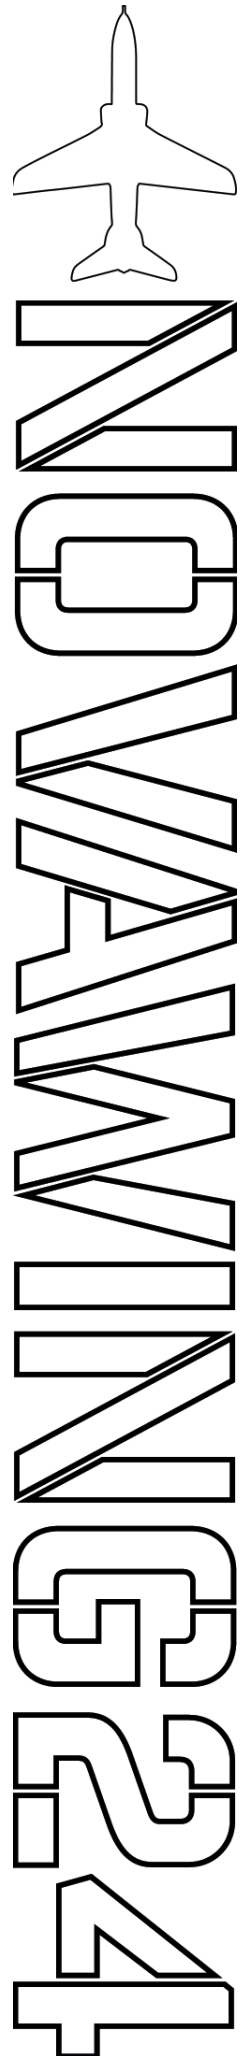

Whilst the real aircraft were PR Mk IX's, the LF Mk IX will have to suffice!

Thank you for supporting my work and keep an eye out on my website and my Facebook page for any updates to this product and the future releases.

I hope you enjoy this aircraft and would love to see it in action! Join fellow aviators in our community [Discord](#) and share your thoughts and experiences there!

ABOUT THE ARTIST

I have been around aviation for longer than I care to remember. Whilst my own professional piloting dreams were crushed through medical restrictions, instead I have found ways to become active in the aviation world, both real and virtual. I currently work in the training space, providing training solutions and content to the Aviation and Defence sectors while simultaneously working with a range of high-quality developers across the home user market.

I first started experimenting with creating textures for HAWX following many years building plastic scale models. From very humble and basic beginnings, I have slowly grown my skills and content. I have created texture sets for all the major flight simulation platforms, as well as arcade style titles and professional training software for over a decade. My content can be found in virtual hangars all around the world as well as supplying content to professional training organizations and add-on developers.

As well as uploading freeware content, I have a range of content available for sale and I am available for commission work. My Commission status and rates are generally available in my Community [Discord](#). Head over to my [website](#), [GumRoad](#) store to check out my other work; or reach out and get in touch if you have a specific project in mind.

NOGVAWNING24

It is not the critic who counts; not the man who points out how the strong man stumbles, or where the doer of deeds could have done them better.

The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood; who strives valiantly; who errs, who comes short again and again, because there is no effort without error and shortcoming; but who does actually strive to do the deeds; who knows great enthusiasms, the great devotions; who spends himself in a worthy cause; who at the best knows in the end the triumph of high achievement, and who at the worst, if he fails, at least fails while daring greatly, so that his place shall never be with those cold and timid souls who neither know victory nor defeat.

~ Theodore Roosevelt
