7. You agree not to, nor will you permit others to licence, sell, rent, lease, assign, distribute, host, outsource, disclose, or otherwise commercially exploit this content nor make it available to any third party.

8. Ignorance of this document or of its interpretation is not sufficient grounds for exception to it and its legality.

9. The Author reserves the right, at their sole discretion, to modify or replace this Agreement at any time. If a revision is material, we will provide at least 14 days’ notice prior to any new terms taking effect. What constitutes a material change will be determined at our sole discretion.

ABOUT

The Edgley EA-7 Optica is a British light aircraft designed for low-speed observation work, and intended as a low-cost alternative to helicopters.

This particular airframe was Number 006 and operated by Claymore Air Services. It wore corporate sponsorship from Manitiou Fork Lifts.

This aircraft was one of 8 destroyed in a suspicious fire at the factory and home airfield Old Sarum in 1987.

INSTALLATION

THIS VERSION SUPPORTS THE ORBX EDGLEY EA-7 OPTICA ONLY.

1. Run the N24 Orbx Optica G-FORK Livery v1.1.exe

3. Follow the on-screen prompts

UNINSTALLATION

1. Navigate to your *Windows > Settings > Apps > Apps & Features*

2. Locate and Uninstall *N24 Orbx Optica G-FORK Livery* from the displayed list.

PILOTS NOTES

The Edgley Optica for me summarizes the core of my love for aviation; a celebration of all things weird and wonderful in aviation.

Born in an era where drones and AI were still the realm of science fiction, the Optica was designed to fill a role that would be replaced by machines. Despite its commercial failure, it remains a fascinating piece of technology and glimpse of something very different.

Thank you for supporting my work and keep an eye out on my website and my Facebook page for any updates to this product and the future releases.

I hope you enjoy this aircraft and would love to see it in action! Join fellow aviators in our community Discord and share your thoughts and experiences there!

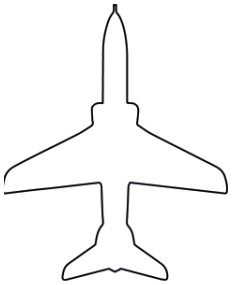
ABOUT THE ARTIST



INNOVATION24

I have been around aviation for longer than I care to remember. Whilst my own professional piloting dreams were crushed through medical restrictions, instead I have found ways to become active in the aviation world, both real and virtual. I currently work in the training space, providing training solutions and content to the Aviation and Defence sectors while simultaneously working with a range of high-quality developers across the home user market.

I first started experimenting with creating textures for HAWX following many years building plastic scale models. From very humble and basic beginnings, I have slowly grown my skills and content. I have created texture sets for all the major flight simulation platforms, as well as arcade style titles and professional training software for over a decade. My content can be found in virtual hangars all around the world as well as suppling content to professional training organizations and add-on developers.

As well as uploading freeware content, I have a range of content available for sale and I am available for commission work. My Commission status and rates are generally available in my Community Discord. Head over to my website, GumRoad store to check out my other work; or reach out and get in touch if you have a specific project in mind.
