1. For the purposes of this agreement, the Author is defined as Novawing24, aka Novawing24 Productions, and the User (also referred to as “you”) is defined as the individual who downloaded this livery for personal / recreational use.
2. No harm is intended or expected by this package. The use of this package is entirely at the risk of the user, persons in charge, or those using this product. Any risks of any form are entirely the responsibility and liability of the user, users or persons who use or download this package.
3. The Author accepts no liability or responsibility for any damage or harm to persons or material goods as a result of this package. Any costs relating to any damage or claimed damage is the sole responsibility of the user.
4. This release is for use solely for personal / recreational purposes and is not to be used for commercial purposes. If you wish to use this content for commercial purposes, please contact the Author at novawing24@outlook.com.
5. This release is released as Freeware. If you have accessed this work from any means other than <http://www.novawing24.com>, Gumroad Store, flightsim.to or supplied directly by the Author, please advise the Author by email to novawing24@outlook.com.
6. You may NOT modify, edit, or in any way alter this work nor use it as a base for your own work nor redistribute it via any means without express written authority from the Author.
7. You agree not to, nor will you permit others to licence, sell, rent, lease, assign, distribute, host, outsource, disclose, or otherwise commercially exploit this content nor make it available to any third party.
8. Ignorance of this document or of its interpretation is not sufficient grounds for exception to it and its legality.
9. Any breach of the outlined terms of this agreement will result in revocation of your authority to use the package and its contents. It will also make you liable for compensation to be paid to the author for the breach(s).
10. The Author reserves the right, at their sole discretion, to modify or replace this Agreement at any time. If a revision is material, we will provide at least 14 days’ notice prior to any new terms taking effect. What constitutes a material change will be determined at our sole discretion.

ABOUT

The Eurofighter Typhoon was the result of European cooperation to produce an affordable and effective combat aircraft to fulfil the air defence mission. It has evolved into a highly effective multi-role combatant serving airforces around the world.

The second development aircraft (DA2) was operated by the Royal Air Force serialed ZH588. It was one of seven development aircraft, and while it was completed and ready for flight first, that honour went to DA1 in Germany on 27 March 1994.

The aircraft is now preserved and on display at RAF Museum London.

PILOTS NOTES

The Eurofighter Typhoon is an iconic aircraft without a doubt. I was fortunate enough to see this airframe on one of my visits to RAF Museum London and am excited to be able to recreate it for Microsoft Flight Simulator.

Although we will have to excuse the fact that the external model is an FGR4!

Thank you for supporting my work and keep an eye out on my website and my Facebook page for any updates to this product and the future releases.

I hope you enjoy this aircraft and would love to see it in action! Join fellow aviators in our community [Discord](#) and share your thoughts and experiences there!

ABOUT THE ARTIST

I have been around aviation for longer than I care to remember. Whilst my own professional piloting dreams were crushed through medical restrictions, instead I have found ways to become active in the aviation world, both real and virtual. I currently work in the training space, providing training solutions and content to the Aviation and Defence sectors while simultaneously working with a range of high-quality developers across the home user market.

I first started experimenting with creating textures for HAWX following many years building plastic scale models. From very humble and basic beginnings, I have slowly grown my skills and content. I have created texture sets for all the major flight simulation platforms, as well as arcade style titles and professional training software for over a decade. My content can be found in virtual hangars all around the world as well as supplying content to professional training organizations and add-on developers.

As well as uploading freeware content, I have a range of content available for sale and I am available for commission work. My Commission status and rates are generally available in my Community [Discord](#). Head over to my [website](#), [GumRoad](#) store to check out my other work; or reach out and get in touch if you have a specific project in mind.

NOVAWING24

It is not the critic who counts; not the man who points out how the strong man stumbles, or where the doer of deeds could have done them better.

The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood; who strives valiantly; who errs, who comes short again and again, because there is no effort without error and shortcoming; but who does actually strive to do the deeds; who knows great enthusiasms, the great devotions; who spends himself in a worthy cause; who at the best knows in the end the triumph of high achievement, and who at the worst, if he fails, at least fails while daring greatly, so that his place shall never be with those cold and timid souls who neither know victory nor defeat.

~ Theodore Roosevelt
