ABOUT

Dissimilar Air Combat Training - also known as Aggressor training - is a form of training used by air forces around the world where aircraft are used as surrogates for potential adversaries to aid in training.

These aircraft are often former frontline aircraft that have seen their fair share of life in their primary roles, before finding a new lease on life training the worlds best pilots.

The US Navy along with the US Air Force maintain the largest nation run adversary forces, and VFC-12 is one of their premier training squadrons of the US Navy.

In 2021, it was published online that not only were US Navy aggressor squadrons being re-equipped with Super Hornet's, it was also revealed what a number of their colour schemes would look like. Artist Grant Little was tasked by the US Navy to come up with a number of schemes that would be suitable for their new role.

ABOUT

This livery pack brings to life 5 of the proposed liveries for VFC-12

- SU-57 “Mako”
- J-15 Flying Shark
- J-10B Vigorous Dragon
- Cloud
- Ghost

BUSHTRIP - SIDEWINDER

As well as the liveries, this pack also includes a Bushtrip to test your low altitude flying skills through Death Valley and the famous Sidewinder Canyons.

Keep your altitude low and follow the canyons as you race through Death Valley. Once airborne keep your altitude below 5000ft AGL, and don't break the sound barrier! If you get through the course safely and make it back to base, taxi in and shut down the aircraft before heading for debriefing.

PILOTS NOTES

One of the sad things about modern combat aircraft, is the depressingly common nature of colour schemes. Aggressor squadrons definitely buck this trend and provide some fascinating and unique variations to the aviation world.

From the moment I saw the designs for the F/A-18E that were proposed for their new aggressor role, I wanted to bring them to life. I hope that I have done them justice, and hope you enjoy something a little different in your hangar!

Thank you for supporting my work and keep an eye out on my website and my Facebook page for any updates to this product and the future releases.

I hope you enjoy this aircraft and would love to see it in action! Join fellow aviators in our community [Discord](#) and share your thoughts and experiences there!

ABOUT THE ARTIST

I have been around aviation for longer than I care to remember. Whilst my own professional piloting dreams were crushed through medical restrictions, instead I have found ways to become active in the aviation world, both real and virtual. I currently work in the training space, providing training solutions and content to the Aviation and Defence sectors while simultaneously working with a range of high-quality developers across the home user market.

I first started experimenting with creating textures for HAWX following many years building plastic scale models. From very humble and basic beginnings, I have slowly grown my skills and content. I have created texture sets for all the major flight simulation platforms, as well as arcade style titles and professional training software for over a decade. My content can be found in virtual hangars all around the world as well as supplying content to professional training organizations and add-on developers.

As well as uploading freeware content, I have a range of content available for sale and I am available for commission work. My Commission status and rates are generally available in my Community [Discord](#). Head over to my [website](#), [GumRoad](#) store to check out my other work; or reach out and get in touch if you have a specific project in mind.

NOVEMBER

It is not the critic who counts; not the man who points out how the strong man stumbles, or where the doer of deeds could have done them better. The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood; who strives valiantly; who errs, who comes short again and again, because there is no effort without error and shortcoming; but who does actually strive to do the deeds; who knows great enthusiasms, the great devotions; who spends himself in a worthy cause; who at the best knows in the end the triumph of high achievement, and who at the worst, if he fails, at least fails while daring greatly, so that his place shall never be with those cold and timid souls who neither know victory nor defeat.

~ Theodore Roosevelt
