ABOUT

The Royal Flying Doctor Service of Australia is a non-profit Aeromedical Service that provides Primary Healthcare as well as Emergency Care and Evacuation services to regional and remote parts of Australia.

Known colloquially as The Flying Doctor, the service provides critical care services, and acts as the local healthcare provider for thousands of Australians away from major towns and cities. They rely heavily on community participation and fundraising to continue their critical role.

Your purchase of this livery has helped keep the Flying Doctor flying!

The PC-12 is operated by the RFDS Central and Western Operations commands for operations in Western Australia, South Australia and the Northern Territory.

This texture set recreates PC-12/47E VH-FVB while in service with RFDS Central Operations during 2022. This aircraft is sponsored by BHP.

This texture set is for use with the SWS PC-12 for Microsoft Flight Simulator only and is not compatible with other models.

PILOTS NOTES

The RFDS is of great importance to me, indeed I would not be alive if it were not for the Flying Doctor.

I had always wanted to be able to do something to give back to the service that gives so much to so many Australians every day. Finally I am able to do that. I worked closely with the RFDS to be able to bring this livery to you, as well as the others available as part of this range. I will continue to expand the range as time goes on and look forward to seeing you wearing these colours with pride!

Thank you for supporting the RFDS with this release. Profits from this purchase are donated to the RFDS, so every time you fly this in your sim, know that you have helped save a life somewhere in outback Australia!

I hope you enjoy this aircraft and would love to see it in action! Join fellow aviators in our community [Discord](#) and share your thoughts and experiences there!

ABOUT THE ARTIST

I have been around aviation for longer than I care to remember. Whilst my own professional piloting dreams were crushed through medical restrictions, instead I have found ways to become active in the aviation world, both real and virtual. I currently work in the training space, providing training solutions and content to the Aviation and Defence sectors while simultaneously working with a range of high-quality developers across the home user market.

I first started experimenting with creating textures for HAWX following many years building plastic scale models. From very humble and basic beginnings, I have slowly grown my skills and content. I have created texture sets for all the major flight simulation platforms, as well as arcade style titles and professional training software for over a decade. My content can be found in virtual hangars all around the world as well as supplying content to professional training organizations and add-on developers.

As well as uploading freeware content, I have a range of content available for sale and I am available for commission work. My Commission status and rates are generally available in my Community [Discord](#). Head over to my [website](#) and [GumRoad](#) store to check out my other work; or reach out and get in touch if you have a specific project in mind.

NOVAWING24

NOVEMBER 21

It is not the critic who counts; not the man who points out how the strong man stumbles, or where the doer of deeds could have done them better. The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood; who strives valiantly; who errs, who comes short again and again, because there is no effort without error and shortcoming; but who does actually strive to do the deeds; who knows great enthusiasms, the great devotions; who spends himself in a worthy cause; who at the best knows in the end the triumph of high achievement, and who at the worst, if he fails, at least fails while daring greatly, so that his place shall never be with those cold and timid souls who neither know victory nor defeat.

~ Theodore Roosevelt
