8. Ignorance of this document or of its interpretation is not sufficient grounds for exception to it and its legality.
9. Any breach of the outlined terms of this agreement will result in revocation of your authority to use the package and its contents. It will also make you liable for compensation to be paid to the author for the breach(s).
10. The Author reserves the right, at their sole discretion, to modify or replace this Agreement at any time. If a revision is material, we will provide at least 14 days’ notice prior to any new terms taking effect. What constitutes a material change will be determined at our sole discretion.

ABOUT

The F-5E Tiger II is forerunner of the modern day lightweight fighter.

Conceived as a development from the original F-5 Freedom Fighter, it was as much an extension of American foreign policy as it was a fighter aircraft in its own right. The winner of the International Fighter Competition, it was intended to provide an effective low cost fighter for American allies.

Over 3,800 F-5's of all variants were produced before production ended in 1987. While primarily serving with allied air forces, a number of F-5's returned to the US and serve in an adversary role with US forces.

PILOTS NOTES

I was fortunate enough to work on the base textures for the core SC Designs F-5E. While researching what liveries to make and include, it was incredibly difficult to narrow down what to include in the release package.

So many of these aircraft seeing service with so many services around the world, there were so many options! I am grateful that I am able to use that research to bring more to the community!

A random discovery that I made while working on this pack, was that VFC-111 has been colloquially called the Defenders of the Conch Republic. Initially I thought this was a generic REDFOR country name they operated as, only to learn about the great Micronation of the [Conch Republic](#)! (seriously look it up it's fascinating!)

Thank you for supporting my work and keep an eye out on my website and my Facebook page for any updates to this product and the future releases.

I hope you enjoy this aircraft and would love to see it in action! Join fellow aviators in our community [Discord](#) and share your thoughts and experiences there!

ABOUT THE ARTIST

I have been around aviation for longer than I care to remember. Whilst my own professional piloting dreams were crushed through medical restrictions, instead I have found ways to become active in the aviation world, both real and virtual. I currently work in the training space, providing training solutions and content to the Aviation and Defence sectors while simultaneously working with a range of high-quality developers across the home user market.

I first started experimenting with creating textures for HAWX following many years building plastic scale models. From very humble and basic beginnings, I have slowly grown my skills and content. I have created texture sets for all the major flight simulation platforms, as well as arcade style titles and professional training software for over a decade. My content can be found in virtual hangars all around the world as well as supplying content to professional training organizations and add-on developers.

As well as uploading freeware content, I have a range of content available for sale and I am available for commission work. My Commission status and rates are generally available in my Community [Discord](#). Head over to my [website](#) or [GumRoad](#) store to check out my other work; or reach out and get in touch if you have a specific project in mind.

It is not the critic who counts; not the man who points out how the strong man stumbles, or where the doer of deeds could have done them better. The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood; who strives valiantly; who errs, who comes short again and again, because there is no effort without error and shortcoming; but who does actually strive to do the deeds; who knows great enthusiasms, the great devotions; who spends himself in a worthy cause; who at the best knows in the end the triumph of high achievement, and who at the worst, if he fails, at least fails while daring greatly, so that his place shall never be with those cold and timid souls who neither know victory nor defeat.
